Projects

2025

THREADS CLONE
Personal
Developed a social media platform inspired by Threads, using React.js with Vite for a fast and responsive frontend, and Node.js with Express for a robust backend. Integrated MongoDB for scalable data storage and Tailwind CSS for modern, utility-first styling. Key features include post sharing, likes, comments, profile viewing, and friend management.

2024

OCEAN PLAYERS
Freelancing
Platform: Android Application (React Native)
| Admin Panel (ReactJS)
Tech Stack: React Native, ReactJS, Tailwind
CSS, Redux, Async Storage.

Developed a mobile application and admin
panel for Ocean Players, a dynamic Android
platform aimed at delivering seamless user
experiences in the entertainment/sports
domain. The mobile app was built using
React Native, focusing on performance and
cross-platform compatibility. The admin
panel, built in ReactJS, facilitates real-time
content and user management.

2021

WINDOWS 11 CLONE
Academic Project
A Windows 11 clone has been built in HTML,
CSS, and JavaScript. It functions in the same
way as Windows 11.It has a Start Menu,
Recent Activities, This PC option, Task Bar,
etc.
